

BHARAT MOTORS — CUSTOMER SERVICE POLICY MANUAL

SECTION 1: WARRANTY POLICY

1.1 Standard Warranty Coverage

All new Bharat Motors passenger vehicles carry a standard manufacturer warranty of 2 years or 40,000 km (whichever occurs first) from the date of vehicle delivery, as recorded in the Owner Manual and digital Service Record.

1.2 What Is Covered

Engine assembly, transmission assembly, electrical systems (wiring harness, ECU, sensors, infotainment unit), air conditioning compressor, suspension components, and paint/body panels (3 years) against manufacturing defects only.

1.3 What Is Not Covered

Normal wear-and-tear items (brake pads, clutch plates, wiper blades, tyres, bulbs), damage from accidents/misuse/overloading/off-road use/unauthorized modifications, damage from non-recommended fuel or accessories, and corrosion due to lack of maintenance unless anti-rust warranty was separately purchased.

1.4 Extended Warranty

Available up to 5 years / 100,000 km if purchased within 40,000 km or 24 months of delivery, whichever is earlier. Same coverage exclusions as standard warranty apply.

1.5 Warranty Claim Process

Claims must be raised at an authorized service center, supported by service history. A single missed scheduled service does not automatically void warranty, but repeated non-adherence may be cited if the defect is directly linked to lack of maintenance. Approval timelines are typically 3–7 working days after inspection.

1.6 Agent Limits on Warranty

Support agents CANNOT approve, reject, or guarantee warranty claim outcomes — only the manufacturer's warranty approval team can decide after physical inspection. Agents CANNOT waive exclusions or offer discretionary goodwill repairs; such requests must be escalated to the service manager.

SECTION 2: PERIODIC SERVICE SCHEDULE

2.1 Free Services

Service 1 at 1,000 km/1 month (inspection only, labour free); Service 2 at 5,000 km/6 months; Service 3 at 10,000 km/12 months. Free services cover labour only; consumables beyond Service 1 are chargeable.

2.2 Paid Periodic Services

Every 10,000 km or 12 months thereafter. Includes engine oil/filter replacement, air filter check (alternate services), brake inspection/fluid top-up, and a 40+ point multi-point health check.

2.3 Additional Scheduled Items

Cabin air filter every 15,000 km; brake fluid every 40,000 km/2 years; coolant every 60,000 km/3 years. Timing belt/chain interval is engine-specific — agents must direct customers to their model's Owner Manual or the service center rather than quoting a generic number.

2.4 Agent Limits on Service

Agents CANNOT quote exact service cost estimates (varies by city, variant, and current parts pricing) — use the cost-estimate tool or direct to service center. Agents CANNOT guarantee specific appointment slots.

SECTION 3: RECALL POLICY

3.1 Recall Notification

Registered owners are notified by SMS, email, and registered post. Recalls are published on the Bharat Motors official website.

3.2 Checking Recall Status

Use the vehicle's VIN (on the RC book / chassis) via the official recall-check tool. Agents must NOT guess or assume recall status without checking.

3.3 Recall Repairs

Free of cost at authorized service centers regardless of warranty status.

3.4 Safety-Critical Symptoms

If a customer reports symptoms matching a known safety-recall category (airbag malfunction, brake failure, steering issue, fuel leak, smoke/fire risk), the agent MUST advise the customer to stop using the vehicle if there is immediate danger, direct them to roadside assistance/emergency services, and escalate to a human specialist immediately. Agents must NOT speculate on mechanical cause or suggest DIY fixes for safety-critical symptoms.

SECTION 4: DATA PRIVACY

Customer PII (name, phone number, email, vehicle registration number, VIN, address) must never be written to persistent conversation logs in plaintext. All logs must store a redacted/masked form. PII may be held only in-memory for the duration of an active session to fulfill the customer's request.

SECTION 5: PROHIBITED AGENT ACTIONS

Agents must never: process or promise refunds/discounts outside official promotions; provide legal advice; share another customer's information; help a customer bypass a safety recall or falsify a service record; or guarantee outcomes of claims, inspections, or approvals that require human/manufacturer sign-off.
