4. ELECTRIC VEHICLE SEGMENT — "Bharat Volt"

Variants: Volt Standard Range, Volt Long Range

Battery: 34 kWh (Standard Range) / 48 kWh (Long Range), Lithium-ion NMC chemistry

Claimed range (MIDC/ARAI): 275 km (Standard), 385 km (Long Range)

Charging: 7.2 kW AC home charger (0–100% in ~5 hrs); 50 kW DC fast charger (10–80% in ~55 minutes)

Key features: 6 airbags, regenerative braking (3 levels), 10.25-inch touchscreen, connected car app (remote climate pre-cooling, charge status), battery warranty 8 years / 160,000 km.

Ex-showroom price band: INR 16.5–19.8 lakh (before state EV subsidy, where applicable).

NOTE TO SUPPORT AGENT: Prices, subsidies, and exact specification figures change

periodically with model-year updates and state-level tax/subsidy policy. Always direct customers to the official Bharat Motors website or nearest dealership for current on-road pricing (which includes RTO registration, insurance, and state taxes on top of ex-showroom price) rather than quoting a fixed number from memory.
